THE CONCEPT OF THE FORUM

Mission

Promotion of the ideas of modernization of law in the context of global changes taking place today, improvement of professional and personal skills, formation of a deep awareness of the value of human communication and the principles of interdependence in solving complex legal, social tasks and challenges facing the Russian economy/

Formate

KILF creates a unique ecosystem where representatives of the legal, business community and public authorities discuss complex and important issues with colleagues and partners in a friendly and open atmosphere. The business program includes presentations by leading experts and open panel discussions on topical issues.
The evening program will delight with its sophistication and traditional Tatar hospitality.

Aim

Identification, analysis of the main problems and trends in the field of legal relations that affect the qualitative development of business, society and the state/

Tasks

- positioning of the legal profession as a qualitative method of mediation in the relationship between business and the state;
- legal support of the process of attracting investments into the economy;
- training in effective skills, competencies via the best practices necessary for the legitimate conduct and maintenance of business in modern realities (hard skills / soft skills);
- effective networking and the obtainment of useful acquaintances;
- promoting the development of legal literacy in the business community;
- forecasting the future of the legal profession;
- creation of a united community of the legal community;
- international cooperation in the legal field.

UNIQUE OPPORTUNITIES FOR FORUM PARTICIPANTS

KILF - is a unique platform for an open dialogue between representatives of government, science and business. Two busy days of the business program give its participants an invaluable experience of communication in a friendly atmosphere.

This is a platform where:

representatives of public authorities can actively participate in an open dialogue with the business community while maintaining a high level of loyalty on both sides, as well as get the opportunity to introduce additional competencies into the work of a civil servant;

representatives of science have the opportunity for professional communication with leading Russian scientists in the field of law, joint discussion of modern problems and research prospects for the development of law;

the business community will learn how to prevent legal risks when doing business, immerse themselves in a professional environment and receive legal assistance in the networking mode;

the legal community will be able to improve their personal and professional skills, as well as find potential clients and partners;

young professionals can get a source of inspiration in the profession and high-quality educational content
